## Summary

**Software engineer** with 2+ years of experience in developing and maintaining web applications. Proven ability to work independently and as part of a team to deliver high-quality products on time and within budget. Seeking a challenging role in a fast-paced environment where I can use my skills and experience to make a significant contribution.

I am a highly motivated and self-driven individual with a passion for software engineering. I am eager to learn new things and am always looking for ways to improve my skills. I am also a team player and am always willing to help others.

I am confident that I have the skills and experience necessary to be successful in this role. I am eager to learn more about your company and the position, and I am confident that I would be a valuable asset to your team.

## Work Experience

- **Web Developer Bracket Technologies June 2023 - September 2023**

Developed and maintained web applications using Java, Spring Boot, and React

Worked with a team of engineers to design and implement new features.

Successfully launched several new products on time and within budget.

- **Cashier 7 Express Summer 2022**

Provided customer service and assisted customers with their purchases.

Processed transactions and handled cash and credit card payments

Maintained a clean and organized work environment.
